Atlas Technologies, Remote, BR — Senior Front-end Engineer

JUN 2022 - OCT 2023

Deliver responsible mobile first interfaces to the consumer area of the project.

Guide and help the front-end area for the multidisciplinary team.

Design and ensure code-style, folder pattern and bring suggestions to improve code organization.

Main tech: Vue 2 and 3, Vuex, Nuxt, React, Jest, Typescript, Storybook, Docker and MySQL

Appmax, Remote, BR — Senior Front-end Engineer

JUN 2021 - JUN 2022

Developed the new web-page to the company.

Guide a team with 4 developers before the tech leader.

Optimized SSR of company's page.

Build a component library to ensure components pattern.

Main tech: Vue2, Nuxt, Typescript, npm, Jest and MySQL

SKILLS

I have experience with:

Vue.js, React.js, React-native, Node, Typescript, Postgres, MongoDB, MySQL, RealmDB, Docker, GraphQL, Unit tests and PHP

I've applied these skills in multiple large distributed systems used by companies.

HIGHLIGHTS

Developed new consumer plans and payment screens within Fatal Model, enabling exploration of new payment sources for the company, resulting in a revenue increase of over 40%.

Designed a new webpage for Appmax.com.br, implementing a customer funnel that reduced the workload for the onboarding team, allowing them to focus on acquiring new potential customers.

Designed and developed a service capable of creating integrations between the primary Saturno Smart system and customers without requiring any changes to the core system.

LANGUAGES

Portuguese, English

Folha Dirigida, Remote, BR — Full-stack Software Engineer

AUG 2020 - JUN 2021
